NASHVILLE ELECTRIC SERVICE

ELECTRIC POWER BOARD

OF THE CITY OF NASHVILLE

NASHVILLE 3, TENN.

June 29,1955

Mr. T. R. Ezell,
4202 Belmont Park Terrace,
Nashville, Tennessee

Dear Mr. Ezell:

Your letter regarding closing of an alley in Belmont Park Place Subdivision has been received.

Our Engineering Department has reviewed our future planning which does not include the use of the alley in question, as existing and probable future power lines would be located on the streets in this subdivision.

We wish, therefore, to advise that the Electric Power Board will interpose no objection to the closing of the alley, and you may regard this letter as your authority for joining with the other petitioners in their request for the closing of the alley.

Yours very truly,

J. L. Sisk,
General Manager.
