WARRANTY DEED

FOR AND IN CONSIDERATION OF THE SUM OF ONE HUNDRED AND No/100 DOLLARS ($100.00) Cash in hand paid by KENNETH W. WILLIAMS AND WIFE, THERESE S. WILLIAMS, the receipt of which is hereby acknowledged, We, CHARLES G. LEEPER AND WIFE, LINDA O. LEEPER, have bargained and sold, and by these presents do transfer and convey unto the said KENNETH W. WILLIAMS AND WIFE, THERESE S. WILLIAMS, the GRANTEES herein, their heirs and assigns, a certain tract or parcel of land in Davidson County, Tennessee, described as follows:

A tract of land described according to a survey by J. Bruce Rainey, Surveyor, No. 823, dated March 24, 1988, and Revised April 11, 1988, and known as Job No. 880035, more particularly described as follows:
BEGINNING at an iron pin set in the original line of the Charles G. Leeper property of record in Book 4921, page 214, and the original line of the Kenneth W. Williams property of record in Book 6641, page 639, R.O.D.C., said point of beginning being N 44° 56' 14" E. 328.89 feet from the westernmost common corner of the Leeper property and the Williams' property; thence with the original line N 44° 56' 14" E 211.11 feet to a point; thence continuing with said original property line S 47° 21' 18" East 221.36 feet to an iron pin; thence leaving the original property line and severing the Charles G. Leeper property the following calls: N 84° 48' 36" W 27.01 feet to an iron pin; thence N 46° 53' 16" W 103.24 feet to an iron pin; thence S 81° 55' 59" W 111.82 feet to an iron pin; thence S 60° 09' 09" W 114.10 feet to the point of beginning, containing 0.24 acres, more or less.

Being part of the same property conveyed to Charles G. Leeper by deed of record in Book 4921, page 214, Register's Office for said County.

SAID CONVEYANCE IS MADE SUBJECT TO THE FOLLOWING:

The pond which presently lies on the boundary of the present Kenneth and Therese Williams property as described in Book 6641, page 639, of Davidson County, Tennessee, and the Charles and Linda Leeper property as described in Book 4921, page 214, said Register's Office, will after the exchange of property described above lie totally within the new boundaries of the Kenneth and Therese Williams property.

In the following agreement, the Williams property as described by the new boundaries after the exchange will be referred to as Property "W" and the Leeper property as described by the new boundaries after the exchange will be referred to as Property "L".

All overflow from the aforementioned pond will permanently remain across the new 97.72' S 84° 48' W common boundary between property "W" and property "L" in an area from 10' to 25' from the intersection of the 97.72' S 84° 48' W and the 103.24' N 46° 53' E new common boundary lines. The overflow will be maintained at the above location by the present or future owners of property "W" or future owners of the pond unless a change is agreed to by the present or future owners of property "L".

The present or future owners of property "L" may reduce the depth of the overflow across the 97.72' S 84° 48' W common boundary of properties "W" and "L" on both sides of the boundary line by a maximum of 12 inches below the water line of the pond on property "W" to fill a possible future pond on property "L". The 12 inch maximum depth must be maintained by the owners of property "L" such that the flow of water through the cut in the overflow does not increase the depth of the cut to more than the 12 inch maximum. A maximum 18 inch width of the cut in the overflow must be maintained. This cut or modification of the overflow can only be done by the owners of property "L" with a minimum of two weeks advance notice to the owners of property "W" and only when the water level of the pond on property "W" is within 12 inches of the level of the overflow.

The overflow across the common 97.72' S 84° 48' W boundary will remain at its reduced level until the new pond on property "L" has reached a level within six inches of the original overflow level or has reached the overflow level of the new pond on property "L" which is fed from the pond on property "W".

The final water level of the new pond on property "L" under normal conditions must be at least 6 inches below the original level of the overflow between the pond on property "W" and the pond on property "L" where original level is the level of the overflow prior to its being cut or modified.

When the water level of the new pond on property "L" has reached the desired level as described in the previous paragraph, the present or future owners of property "L" who reduced the height of the overflow across the common boundary will have a maximum of four months to restore the overflow to its original level, waterholding condition and appearance with the exception of obtaining the original conditions of the ground cover or vegetation.

To have and to hold the said tract or parcel of land, which the appurtenances, estate, title and interest thereto belonging to the said GRANTEES, their heirs and assigns, forever. And we do covenant with the said GRANTEES that we are lawfully seized and possessed of said land in fee simple, have a good right to convey it, and the same is unencumbered, unless otherwise herein set out. And we do further covenant and bind ourselves, our heirs and representatives to warrant and forever defend the title to the said land to the said GRANTEES, their heirs and assigns, against the lawful claims of all persons , whomsoever.

Witness our hands this 29 day of July, 1991.
